AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313

Sir:

In response to the Office Action dated 10 June 2004, applicant, through his undersigned attorneys, amends his above-identified patent application as follows and respectfully request reconsideration.

In the Claims:

1. (Currently Amended) A thermoelectric temperature controlling device that is capable of holding one or more containers storing a substance, comprising;

a main body having at least one cylinder with a closed bottom and an open top that can accept at least one container;

at least one heat sink operably joined to at least one cylinder wall;

at least one container positioning means disposed on at least one wall of the at least one cylinder to direct the position of the container toward at least one heat sink;
